### **Dr. Chao Wu for Board of Education**

Coming from a low-income farmer’s family that barely made ends meet, Dr.Wu understood from a very young age that education was a way to change his life. He worked hard and received an education from systems in China, Singapore and USA. A great education and hard-work build the bridge to success. This belief has driven Dr. Wu to run for Howard County Board of Education (BOE) in 2018, to provide a quality education for our children.

Dr. Wu is an active participant in the HCPSS community. Since 2015, Dr. Wu has testified on multiple issues during Board of Education hearings, including world language education, supporting new school starting time, serving on the BOE Operating Budget Committee and participated in many school redistricting meetings.

Dr. Wu is serving as a board member of the Columbia Association and River Hill Village Association. On both boards, he represents the community and actively listens to residents’ concerns. He is also a member of CA’s risk management and audit committees.

Dr. Wu values the diversity of our community and respects the opinions of others.
